### **FUEL SURCHARGE**

**We recommend you telephone or email us for current FSC.**

**This surcharge is applicable to all shipments handled by Larsen regardless of origin or destination.**

**Larsen would like it known that our fuel surcharge is a necessary method to recover the consistently higher diesel fuel prices and that without the ability to recover these added costs that none of the truckers would be able to remain in business.**

**The truck drivers and the trucking companies will be delighted to see diesel pricing return to historic/normal levels and to eliminate the fuel surcharge at that time.**
